

**IN THE CLAIMS**

Claims 1-11 (canceled)

12. (new) A composition for topical application comprising: kombucha and a cosmetically acceptable carrier mixed with said kombucha.

13. (new) The composition of claim 12, wherein said kombucha is derived from green tea, semi-fermented tea, black tea, smoked black tea, yellow tea, dark tea, white tea, herb tea of plants or of fruits, or an infusion thereof.

14. (new) The composition of claim 13, wherein said kombucha is derived from green tea, semi-fermented tea, black tea, smoked black tea, yellow tea, dark tea or white tea

15. (new) The composition of claim 14, wherein said kombucha is derived from black tea.

16. (new) The composition of claim 12, wherein said kombucha is present in an amount of 0.001% (w/w) to 100% (w/w) of the total weight of said composition.

17. (new) The composition of claim 16, wherein said kombucha is present in an amount of between 0.01% (w/w) and 20% (w/w).

18. (new) The composition of claim 12, wherein said kombucha when mixed with said cosmetically acceptable carrier is in the form of a solution, dispersion, emulsion, paste or powder.

19. (new) The composition of claim 12, wherein said kombucha may be part of, or contained within, a macrocapsule, microcapsule, nanocapsule, liposome, chylomicron, macroparticle, microparticle or nanoparticle, macrosponge, microsponge or nanosponge, or may be adsorbed on an organic polymer powder, talc, bentonite or inorganic support.

20. (new) The composition of claim 12, wherein said kombucha when mixed with said cosmetically acceptable carrier is in the form of a lotion, milk, emollient, or cream.

21. (new) The composition of claim 12, wherein said mixture of kombucha and a cosmetically acceptable carrier is a formulation for skin care or hair care, a make-up-removing base, a foundation tint base, a sun-screen, an artificial suntan base, a shaving base, an aftershave, shampoo, lipstick, mascara or nail varnish.

22. (new) The composition of claim 12 further comprising an adjuvant, organic or hydroglycolic solvent, fatty substance obtained by extraction or synthesis, ionic or non-ionic thickener, softener, opacifier, stabilizer, emollient, silicone,  $\alpha$ - or  $\beta$ -hydroxy acid, antifoaming agent, moisturizing agent, vitamin, perfume, preservative, sequestering agent, coloring agent, gel-forming or viscosity-increasing polymer, surfactant and emulsifier, other water- or fat-soluble active principle, plant extract, tissue extract, marine extract, sun filter, and antioxidant.

23. (new) The composition of claim 22, wherein said kombucha is present in an amount of 0.001% (w/w) to 100% (w/w) of the total weight of said composition.

24. (new) The composition of claim 23, wherein said kombucha is present in an amount of between 0.01% (w/w) and 20% (w/w).

25. (new) The composition of claim 12 further comprising at least one material useful for the prevention or deceleration of protein glycation.

26. (new) The composition of claim 25, wherein said material useful for the prevention or deceleration of protein glycation is collagen.

27. (new) The composition of claim 12, further comprising an agent useful to stimulate subcutaneous lipid synthesis.

28. (new) An article comprising: the composition of claim 12 bound to, incorporated in, absorbed in or adsorbed on textiles, natural or synthetic fibres, wools, and any materials

that may be used for clothing or for day or night underwear intended to come into contact with the skin, such as tights, underclothes, handkerchiefs, or cloths, to exert their cosmetic effect via this skin/textile contact and to permit continuous topical delivery.

29. (new) A method of preventing the signs of endogenous and/or exogenous aging, to restore suppleness and elasticity to the skin, to improve its appearance and the feeling of comfort, to carry out a cosmetic "lipofilling," to firm the skin of the face, hips, thighs, to invigorate the texture of the skin, to recover matter of the skin, to recover the full forms of a young face, restore the volume of the skin, to restore the freshness of the complexion, to increase radiance to treat in particular the wrinkles and/or the fine lines, the cutaneous and/or under-cutaneous sagging of the features of the face, sagging of the skin of the hips, of the thighs, the deterioration (or the collapse) of cutaneous microrelief, the flask skin, the mat skin comprising the step of applying to skin, mucosae or skin appendage a composition in accordance with claim 12 or 23.
